. “Fade Away” is a pumping filter house production with the lovely female voice of MissLadyLife which makes the track to an outstanding one. The last track Dj Dove did with her was just as successful they are back with a vengeance and ready to take on other parts of the world now. The release is coming with strong remixes by the Colombian DJ Fist, the Italian duo Phunk Investigation and the polish mix masters DJ McG & Clermont Ferrand. Additional to the original mix there is also a dub version + a useful acapella tool.
